

J. S. WAHL

A MERRY CHRISTMAS

THE FIRST HOME

AND A

HAPPY, PROSPEROUS NEW YEAR

I WANT to say in this edition of The Hayti Herald how much I appreciate the liberal patronage that has made possible the growth of the J. S. Wahl Bottling Works in the eighteen years of its existence. As many know, I began manufacturing soda water and soft drinks in the little house shown on this page. A wheelbarrow delivered the goods. I put my heart and soul into the work. I strived ceaselessly to make my product the best on the market, and to-day I have the pleasure and the satisfaction of knowing I rank amongst the foremost manufacturers of this kind in the South. I have grown from a one-man plant to thirty-five; from twenty-five cases of soda a day to ONE THOUSAND CASES A DAY.

THE PRESENT HOME

The new home is a modern brick, steam heated, public and private offices, with a valuable corps of office assistants. In the plant is installed the latest machinery, consisting of five Crown machines, two Carbonators, Goldman Soaker, and everything modern. Last year at an expense of \$3,000, I installed a Polar Wave Distilled Water Plant, and last summer our orders were enormous. Three auto trucks are busy early and late making deliveries. This plant is one Caruthersville views with pride.

I am also Agent and Distributor for

FALSTAFF--"The Choicest Product of the Brewers' Art."
